

FiberCell 96 Holder

Dimensions:

LxWxH mm: 517 x 350 x 90
No. cavities: 96
Cells/m²: 530
FiberCell Ø: 35mm
Stacking height: 55mm

outer dimension: 517x350mm

sidewalls to protect against excessive evaporation

good drainage and ventilation

KEY FEATURES:

- Same dimensions as the BCC Insert Frame 96 tray ensures holder fits into current logistic system of customers using this size configuration
- Large ventilation areas along sides and top for optimum air pruning and to avoid root bridging
- Protected around sides to reduce evaporation and drying out
- 90mm tall to minimise exposure of top part of FiberCell
- Large bottom drainage hole
- Ribs in top part to support FiberCell to fit snug for automated production
- Tray and cavities tapered to allow for 55mm stacking height for efficient transportation
