

FiberCell 40 Hybrid Holder

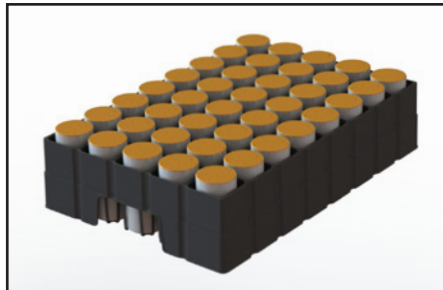

Dimensions:

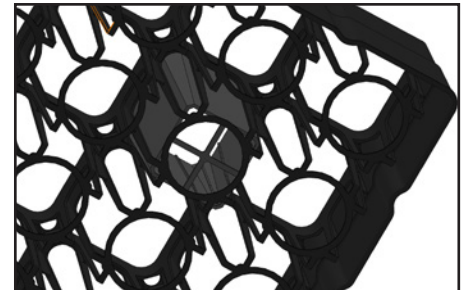

LxWxH (mm) - Holder:	517 x 350 x 118
FiberCell dimensions:	Ø55-60mm & 110 - 135mm length
Insert dimensions:	60 x 60 (top), 50 x 50 (bottom) x 110mm
No. cavities:	40
Cells/m ² :	221
Rootplug volume:	With insert: 300cc (XXL300 insert) Paperpot: 305cc (Ø60mm x 120mm length)
Stacking height (Holder):	60mm (without inserts)
Stacking height (Inserts):	43mm

outer dimension: 517x350mm

sidewalls to protect against excessive evaporation

good drainage and ventilation

KEY FEATURES:

- Shares same dimensions as the BCC "Borneo" tray family – optimal size and weight for handling in nursery and infield
- Hybrid solution - tray functions as a conventional insert tray as well as a paperpot holder
- Large ventilation areas along sides and top for optimum air pruning and to avoid root bridging
- Protected around sides to reduce evaporation and drying out
- Able to grow 135mm tall rootplugs in paperpots
- Large bottom drainage hole
- Ribs in top part to support FiberCell to fit snug for automated production
- Root guiding ribs in XXL300 insert
- Trays nest at 60mm stacking height for efficient transportation and storage

Insert cell XXL300 for FC 40 Hybrid
