

FIBERCELL PRIME FAST PAPER - HERBS & LETTUCE

The Prime Papers are suitable for crops with a shorter propagation time. Our Prime Fast paper are well-suited for a wide segment of crops, including lettuce and various kinds of herbs. Their durability and optimized decomposition time make them an excellent choice for growers looking to cultivate leafy greens and aromatic herbs efficiently, ensuring strong root development and healthy plant growth.

Key benefits with our Prime Fast paper:

- Fast degradation for crops with short propagation time
- Made from cellulose sourced from responsibly managed forests
- Propagation time from 1 – 4 months
- The paper pot allows for good root development and effective air pruning
- Easy to handle and suitable for sorting and spacing

Specifications FiberCell PRIME "Fast"	
Segment	Herbs, Leafy Greens, Lettuce, & Micro Greens
Propagation time	1-4 months (Depending on soil and climate conditions)
Degradable	Yes
Certifications	FSC-C139107
